

Preventive tier drugs to help keep you healthy

At Kaiser Permanente, we don't just care for you when you're sick – we help you stay healthy too. One important part of maintaining good health is detecting and managing problems before they become serious. If you have our Value-Based prescription benefit package with a disease state preventive tier, the following drugs may be available at a reduced cost or no copay.

Kaiser Permanente utilizes a drug formulary, a list of prescription drugs that are preferred and have been approved for our members. The preventive drug list below contains drugs from our formularies designated to be at little or no cost to you, if your prescription benefit package allows – even before your deductible (if applicable) is met. For a complete formulary list, call Member Services or visit kp.org. This list is not a substitute for your plan's formulary and may list drugs that are not covered under your pharmacy benefit.
